

2nd International MASTERCLASS In Andrology and IVF

Organized by the Urology Department Association
of the Souss Massa University Hospital Center
in collaboration with the Global Andrology Forum

Featuring Expert Presentations by:
International Experts from the Global Andrology Forum

G. M. Colpi

G.-M. Pinggera

S. Cayan

C. Wyns

O. Sefrioui

N. Louanjli

A. Bensouda

I. Ziouziou

I. Maldonado

C. Konstantinidis

A. Ryzhkov

A. Rambhatla

R. Shah

A. Agarwal

DECEMBER 3-6, 2025, AGADIR, MOROCCO

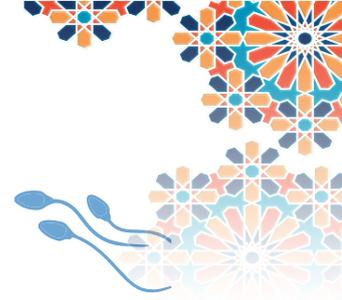

HANDS-ON MICROSURGICAL TRAINING WORKSHOP

DECEMBER 3, 2025

DEPARTMENT OF ANATOMY AND MICROSURGERY, SCHOOL OF MEDICINE AND PHARMACY, AGADIR, MOROCCO.

FACULTY

Prof. G. M. Colpi

Prof. G.-M. Pinggera

Prof. A. Ryzhkov

Dr. F. Castiglioni

Prof. I. Ziouziou

Prof. EL Fakiri M.

Prof. Dergamoune H.

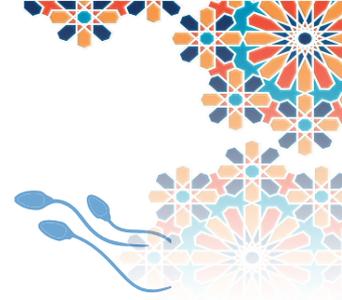

LEARNING OBJECTIVES

1. Demonstrate proper procedures for microscope setup, ergonomic positioning, and handling of surgical instruments.
2. Perform albugineal incision, microdissection of seminiferous tubules, and closure of the albuginea on a testicular model, in accordance with microTESE protocols.
3. Conduct microdissection of the spermatic cord and selectively ligate veins following established microsurgical varicocelectomy techniques.
4. Complete a tension-free anastomosis to simulate vasovasostomy repair.

HANDS-ON MICROSURGICAL TRAINING WORKSHOP
DECEMBER 3, 2025
DEPARTMENT OF ANATOMY AND MICROSURGERY,
SCHOOL OF MEDICINE AND PHARMACY, AGADIR, MOROCCO.

PROGRAM

08:30-09:00 Welcome coffee

09:00–09:20 Welcome, introduction, instruments overview, microscope ergonomics.
Prof. Ziouziou I.

Installation at microscopes (paired participants: alternating practice)

09:20-10:10 Microscope warm-up. (Participant A 25min / Participant B 25min)

10:10–12:00 MicroTESE training:

10:10-10:20 Demo of task: Albugineal incision, microdissection of tubules, Closure.
Prof. Pinggera G.

10:20-12:00 Supervised Practice on testicular model (male rat model). Albugineal incision, Microdissection of tubules, Albugineal closure. (Participant A 50min / Participant B 50min)

12:00-13:00 Lunch.

13:00-14:50 Microsurgical varicocelelectomy training.

13:00-13:10 Demo of task: microdissection of the spermatic cord and selective ligation of veins. **Prof. Colpi G.**

13:10-14:50 Supervised Practice on spermatic cord model (male rat model). (Participant A 50min / Participant B 50min)

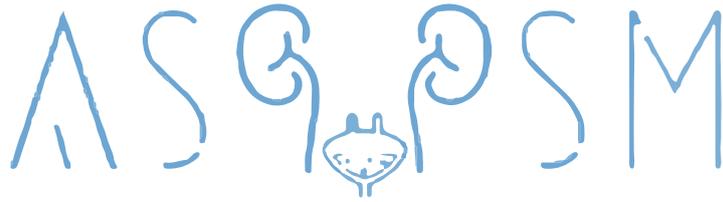

14:50-15:00 Coffee Break

15:00-16:20 – Microsurgical vasovasostomy training.

15:00-15:15 - Demo of task: Suture of femoral artery (male rat model). Tips for vasovasostomy. **Prof. Rhyzkov A.**

15:15-16:50 Supervised Practice (Participant A 50min / Participant B 50min)

16:50-17:00 — Debrief, individualized feedback. **Prof. Ziouziou I.**
